Gary, I don't know the answer.
David or Wayne do you know?
David, would Mickey know?
Thanks.

Subject: CES: As Builts

Steve:

Does the Trustee have "as build" documents for the CES facility which will show where all the sumps are located and how they are connected and where connected. The reason I am asking is because we found an underground oil water separator near the former shed area. It is full of oil and oily sludge (estimated at about 1200 gallons). This would help us make sure we don't have additional surprises.

Thanks

Gary Moore
